Business Management

- Communication • Professionalism • Estimating • Specifications • Ordering Procedures
 - Business Forms • Sales & Marketing
- The student will be able to use technical and design knowledge to solve interior design problems.
- The student will be able to confidently express and sell their design solutions through verbal and visual presentation.
 - The student will produce a comprehensive portfolio.

No Mapping

Sustainability and Accessibility

- Evidence of sustainable considerations • Accessibility awareness
- The student will be able to use technical and design knowledge to solve interior design problems.
- The student will be able to confidently express and sell their design solutions through verbal and visual presentation.
- The student will produce a comprehensive portfolio.

No Mapping

Design Processes

- Human Anthropometric • History • Elements and Principles • Space Function • Aesthetics • Accessibility
- The student will be able to use technical and design knowledge to solve interior design problems.
- The student will be able to confidently express and sell their design solutions through verbal and visual presentation.
- The student will produce a comprehensive portfolio.

No Mapping
