Learning Outcome: Foundational Knowledge

One of the earmarks of a profession is a specialized body of knowledge that is the foundation of, and intrinsic to, competent professional practice. Professional knowledge for peace officers is more than comprehension. It is the analysis, synthesis and internalization of law enforcement and criminal justice concepts, theories and research which provide a foundation for making decisions and forming views about how the roles of peace maker and law enforcer relate to the world a peace officer lives and works in. It is a goal of Minnesota's professional peace officer education to ensure peace officer license eligible candidates demonstrate knowledge in the areas listed in Category Two. These areas are grouped into three parts: Legal Studies, Human Behavior and Other.
