Learning Outcome: Safety
The learner will demonstrate proper workplace safety policies and procedures.

Measure: NOCTI Mechatronics Assessment
Program level Direct - Exam

Details/Description:
The mean score will be equal to the national average. 50% or more of the students will score about the national average.

Acceptable Target:
The mean score will be 10% or greater above the national average. 60% or more of the students will score above the national average.

Ideal Target:

Implementation Plan (timeline):
Spring 2020

Key/Responsible Personnel:
Mechatronics faculty
Learning Outcome: Communication
The learner will demonstrate the ability to utilize operating documents and work instructions and be able to interpret and communicate equipment logs.

**Measure:** NOCTI Mechatronics Assessment
*Program level Direct - Exam*

**Details/Description:**

**Acceptable Target:** The mean score will be equal to the national average. 50% or more of the students will score about the national average.

**Ideal Target:** The mean score will be 10% or greater above the national average. 60% or more of the students will score above the national average.

**Implementation Plan (timeline):** Spring 2020

**Key/Responsible Personnel:** Mechatronics faculty

---

Learning Outcome: Instrumentation and Measurement
The learner will identify and utilize mechanical, fluid power, electrical and electronic equipment.

**Measure:** NOCTI Mechatronics Assessment
*Program level Direct - Exam*

**Details/Description:**

**Acceptable Target:** The mean score will be equal to the national average. 50% or more of the students will score about the national average.

**Ideal Target:** The mean score will be 10% or greater above the national average. 60% or more of the students will score above the national average.
Learning Outcome: Electrical
The learner will describe electrical terminology, circuits and components and interpret and analyze wiring schematics and diagrams.

Measure: NOCTI Mechatronics Assessment
Program level Direct - Exam

Details/Description:
Acceptable Target: The mean score will be equal to the national average. 50% or more of the students will score about the national average.

Ideal Target: The mean score will be 10% or greater above the national average. 60% or more of the students will score above the national average.

Implementation Plan (timeline):
Spring 2020

Key/Responsible Personnel:
Mechatronics faculty
Learning Outcome: Mechanical
The learner will demonstrate an understanding of mechanical components and systems.

Measure: NOCTI Mechatronics Assessment
Program level Direct - Exam

Details/Description:
Acceptable Target: The mean score will be equal to the national average. 50% or more of the students will score about the national average.

Ideal Target: The mean score will be 10% or greater above the national average. 60% or more of the students will score above the national average.

Implementation Plan (timeline):
Spring 2020
Key/Responsible Personnel: Mechatronics faculty

Learning Outcome: Hydraulic and Pneumatic Systems
The learner will describe, identify, and assemble hydraulic and pneumatic components and systems.

Measure: NOCTI Mechatronics Assessment
Program level Direct - Exam

Details/Description:
Acceptable Target: The mean score will be equal to the national average. 50% or more of the students will score above the national average.

Ideal Target: The mean score will be 10% or greater above the national average. 60% or more of the students will score above the national average.

Implementation Plan (timeline):
Spring 2020
Key/Responsible Personnel: Mechatronics faculty
Details/Description:
Acceptable Target: The mean score will be equal to the national average. 50% or more of the students will score about the national average.
Ideal Target: The mean score will be 10% or greater above the national average. 60% or more of the students will score above the national average.

Implementation Plan (timeline): Spring 2020
Key/Responsible Personnel: Mechatronics faculty

Learning Outcome: Computer and Control Systems
The learner will identify, program and utilize PLCs in an automation system.

Measure: NOCTI Mechatronics Assessment
Program level Direct - Exam

Details/Description:
Acceptable Target: The mean score will be equal to the national average. 50% or more of the students will score about the national average.
Ideal Target: The mean score will be 10% or greater above the national average. 60% or more of the students will score above the national average.

Implementation Plan (timeline): Spring 2020
Key/Responsible Personnel: Mechatronics faculty
Learning Outcome: Science Skills
