

SENIOR COLLEGE

DISTINGUISHED LECTURE SERIES
WINTER 2024 OPEN TO ALL AGES!

THE FUTURE OF FOOD

**THE RAPIDLY EVOLVING FIELD
OF CELLULAR AGRICULTURE**

FEATURING:

IRFAN TAHIR
UNIV. OF VERMONT

Presenter live via Zoom.

Join in ATCC Auditorium
743 or watch on Zoom
from your home.

JANUARY 16-25, 2024
Tuesdays & Thursdays, 3:15-5:00 PM

How can we use scientific techniques to create foods like dairy, eggs, or meat? What opportunities and challenges does the future present for agriculture?

Explore the problems with our current food systems, the advancements in alternative food creation using Cellular Agriculture, and the societal impact of these techniques.

New Harvest Fellow and University of Vermont PhD researcher Irfan Tahir will present this four-session program.

\$60 PER PERSON INCLUDES ALL 4 SESSIONS!
